EGX 30 | RIC: .EGX30 | DAILY CHART

After fulfilling the 1st target of the (pink) rising channel near 7,900 level, the index has rebounded from the lower band of another (blue) falling channel. The index has cleared the upper band of it assigning upside target near 8,500 levels (done). Currently a side-way move between 8,500 and 7,900 is being metalizing. Volume and price momentum indicators are showing natural structure. All traders are advised to hold. Otherwise a stop loss below 8,100 level should be respected.

BOTTOM LINE: (Last Price: 8,243 pt.) All traders are advised to Hold.

EGX 70 | RIC: .EGX70 | DAILY CHART

The index has just cleared the lower band of a (brown) symmetrical triangle pattern. The completed pattern assigns down side targets near 330 then 3.24 levels. Volume and price momentum indicators are showing bearish structure. All traders are advised to sell rallies. Otherwise the re-penetration above the broken band will fail the previous bearish scenario.

BOTTOM LINE: (Last Price: 336 pt.) All traders are advised Sell Rallies.
